The new exam tables finally installed, all Abbie needed was to test their functionality before the facility opened and the animals arrived. That's where her younger sister Gina came in. Walking across the room, she opened the door and poked her head out. "You can come back now."

"Okay, so what exactly do you need me for?"

"I think I've got the new tables set up correctly but I need to test how they hold up under weight so get on," Abbie said, motioning to one of five metallic tables now adorning the exam room.

"Really?"

"Really. And since we'll be examining canines you should assume the position?"

"Um, yeah, no," Gina said as she sat on the edge of a table and then scoot back.

"Come on, the weight has to be distributed correctly so just get on all fours so I can take it up and down."

"Why don't you get on all fours while I take it up and down?"

"Because I'm the one that knows how to operate it. Now stop being a damn baby and do it or you're fired."

"Seriously? You're going to play the boss card on me?" Gina grumbled even as she got onto all fours. "That's bullshit and I'll remember it."

"Now lower your upper body until your forearms are flat on the table."

"God damn it, Abbie! Just test the table and get it over with."

"Just as soon as you get into position," Abbie said as her eyes slowly drifted down her sister's body; from her large hanging breasts, soft swell of her belly, and stopping at her perfectly round ass. Resisting the urge to give it a hard slap, she instead pressed a button on the remote in her right hand and the table slowly lowered to the floor. She then hit another button to bring it back up.

"It works, satisfied?"

"Not yet. That was straight down and then back up. Now I need to test it at different levels. But first, hold that position." Walking to a cabinet behind her sister, Abbie opened a door and grabbed several curved pieces of metal from a shelf. Returning to the table, she quickly snapped them around Gina's ankles and then her wrists – the powerful magnets in the upper cuffs connecting to those built into the underside of the table making it virtually impossible for the now bound woman to free herself.

"W-What the fuck are you doing?" Gina exclaimed as she attempted and failed to yank her left arm free. "This isn't fully, Abbie! Let me go right now!"

"Where's the fun in that? Trust me, they're for your own safety."

"How in the hell is cuffing me to... oh shit!" Gina gasped as the table suddenly tilted to the right.

"The cuffs will prevent you from sliding off now be a good bitch and hold still."

"I'm not a bitch!"

"It's a joke, sis. Hold on, something still isn't right." Leveling the table, Abbie went back to the cabinet and then grabbed what appeared to be a leather and latex canine muzzle with attached ears. Going back to the table, She placed it over her sister's face – the penis gag hidden within blocking the protests.

Despite moving her head, Gina had no choice but to allow her older sister to strap the muzzle in place making it impossible for her to complain as her clothes were cut from her trembling body. Red-faced, she glared at her sister until she once again walked out of sight. What she could not see was the huge, anatomically correct butt plug with attached tail in Abbie's left hand, or the bottle of lube in the right. But after a long, tense moment she felt the thin, tapered tip pushing into her tightly puckered asshole. Bucking wildly, she felt it slipping deeper.

"Every puppy needs a tail so relax and take it like a good bitch. You're doing so well, sis. I'm so proud of you for accepting your new role here at the sanctuary," Abbie said as she fucked the toy in and out of her sister's ass up to the fist-sized knot – the bulge near the base of a dog's cock that swells inside the bitch to ensure impregnation. "Once the knot is in you're going to love what comes next. Not gonna lie, sis, you're sexy as fuck and I've been dreaming of this for years," she said as she moves directly behind her bound sibling. Canine cock plug plunging in and out of Gina's ass, she leaned in and sucked her sister's hooded clit. "Mmmm... my god you taste amazing! I know you're thinking this is disgusting, that I'm a monster for pleasuring you, but I love you, Gina I'm doing this for both our good." Pushing hard, she felt the resistance break as the knot slipped into her sister's ass causing the younger woman to scream into the gag filling her mouth.

After bringing her sister to three reluctant orgasms, Abbie left her bound sibling alone long enough to fetch Nugget – her pet husky, from a room across the future animal clinic. As soon as they returned to the exam room, Nugget saw a bitch and immediately ran to her. Nose sniffing, tongue lapping, he recognized this human as one he had met hundreds of times before. Giving her pussy several licks, he mounted and despite her frantic movements thrust his cock into her. Bound. Gagged. Ass stuffed with a silicone canine cock. Pussy now full of the rapidly growing real deal, Gina's mind was a jumbled mess of emotions as the orgasm squirt from her in second.

"God damn that's hot!" Abbie exclaimed. "And an orgasm so quickly. You must really love being his bitch. That's good because part of your job starting today will be to help train every male dog we receive to have sex with their new owners. But don't worry, you won't be training them alone. After putting the rest of the staff through the paces everyone working here, myself included will be tasked with training dogs to pleasure humans. And since you're the first to do it I'm putting you in charge of ensuring everyone tows the new company line. Nod if you understand."

Grunting with every hard thrust of Nugget's cock, Gina rapidly nodded her head up and down.

"Great! Now nod if you genuinely enjoy being taken by my dog."

Again, Gina's head bounced up and down so fast it made her dizzy.

"And if I remove the magnetic cuffs will you try getting away from him?"

A second orgasm tearing through her, Gina shook her head no.

"So, you'll stay put and let him finish?"

As someone that had spent her entire life around dogs and just graduated from veterinary school, Gina knew all about the knot now locked tightly inside of her pussy. She knew it was probably at least as big as a tennis ball and could be as thick as her fist. Either way it was far larger than anything she had ever taken and she did not want to hurt herself or her sister's dog so she nodded in agreement.

“I’m going to remove the muzzle so you can eat me out as he makes you his bitch. If you start screaming or complaining in the slightest I’ll put it back on and then discipline you once he’s finished. Do you understand me?”

Unable to talk with a mouthful of silicone cock, Gina slowly nodded.

“Remember how mom and dad would make us strip down to our panties to make the belt or paddle hurt more? Scream or complain and I’ll make that seem pleasurable in comparison.” And with that, Abbie stripped out of her clothes before kneeling in front of her sister to remove the muzzle. Sitting back, she scoot her ass forward and waited,

“W-Why are you doing this to me?” Gina asked as she lowered her head and began licking her sister’s pussy – the first she had ever pleased.

“Because I love you, sis. And I want every man and woman in this city to know just how pleasurable bestiality truly is and how stupid it is to make it illegal. And to do that we’re going to need to train as many of the beautiful beasts as humanly possible. Now be honest, do you really like his cock?”

“Y-Yes.”

“Really? What do you like about it?”

“Do you want me to eat you out or answer questions because I can’t do both.”

“Sure you can. The pauses to answer will just keep me edging making the orgasm that much more enjoyable.”

“I love how hard and deep he fucked me and even though the knot is massive it’s hitting all the right spots. He’s going to... uhhnnn!” Gina purred as she experienced her third orgasm in five minutes.

“That’s a good bitch. Now make me orgasm like that!” Abbie said as she bucked her hips to meet her sister’s lapping tongue.

Although still pissed that her sister was doing this to her, Gina could not deny the immense pleasure she felt from being fucked by a dog, or the satisfaction of eating pussy even if it belonged to her sibling. In fact, not so deep down she knew that’s what made it so exciting. She also knew there was no going back to the way things were. Like it or not, and she did like it, she had been fucked by a dog while pleasuring her sister and nothing she did could ever erase that humiliating and degrading stain so in that moment as a fourth orgasm threatened to gush out of her like a geyser, she accepted it. She accepted that Nugget’s cock was better than any man she had ever been with. She accepted that she loved the taste of her sister’s pussy. And she accepted that this would be her life moving forward. And with that, her body shuddered in orgasm.

Just as Nugget pulled out and dismounted his human bitch, Abbie covered her sister’s face in another orgasm. “Fucking hell that was amazing!”

“I’m glad I did okay for my first time,” Gina panted in reply “but I think I got the better end of this deal.”

“We’re not finished yet. I’m going to remove the cuffs now and then go fetch Sugar and Bear. If you’re gone when I get back you’ll suffer the consequences, but if you’re still kneeling like a good bitch you’ll reap the rewards.”

Stretching her now freed limbs, Gina got to her feet.

“I guess you’ve made your decision,” Abbie sighed in disappointment.

“I have,” Gina replied as she pulled her older sister in for a long, passion-filled kiss. “I love you, Abbie, so thank you for turning me into a pussy-eating bitch.” Giving her sibling another kiss, she got back down on all fours and waited. “Don’t just stand there, go get them!”

Hopeful her sister was telling the truth, but not entirely certain either, Abbie left the exam room to fetch her other two dogs from the other side of the facility. When she returned it was to the sight of her sister sucking Nugget’s red rocket. It was then she knew Gina was hooked. Getting down on all fours, she crawled towards her sibling and the two huge dogs – a tan and black cane corso named Sugar, and a mastiff named Bear, followed. “That’s really fucking hot, sis! Keep sucking as Sugar and Bear fuck us.”

Holding the large cock just behind the knot, Gina pulled back and looked over at her sister?” Us? Y-You-re going to do it too?”

“Of course! I mean, I’m the one that trained them and every other dog that I’ve owned but I’m not about to let you hog all the fun. Besides, you deserve to see that I’m also their very willing bitch.”

“Thank you.” And with that, Gina sucked the long, tapered cock into her mouth to the knot as Sugar mounted. From the corner of her right eye she saw Bear mount her sister and a beat later got a clear view of his cock pistoning into her. Then, after several tentative thrusts, she was full of Sugar and could already tell he was going to give her one hell of a stretching. That alone was enough to send her spiraling into a series of uncontrollable orgasms with euphoric after shocks thrown in for added pleasure. Pulling her mouth off of Nugget’s cock, she looked over at her grunting, panting sister and cemented her approval for what was happening once and for all. “When they’re finished let’s sixty-nine and lick each other clean. Dibs on top so they can continue fucking me if they want.” And with that, she sucked Nugget back into her mouth.
